

ECGI simulations: potential maps of selected 3-dipoles sources

Figures 1 and 2 display potential maps for all selected 3-dipoles sources (see, Section 2.3, Table 4 and Fig. 5 in *ECGI_simulations.pdf*).

We denote below each map numbers and directions of single dipoles that form a given 3-dipoles source.

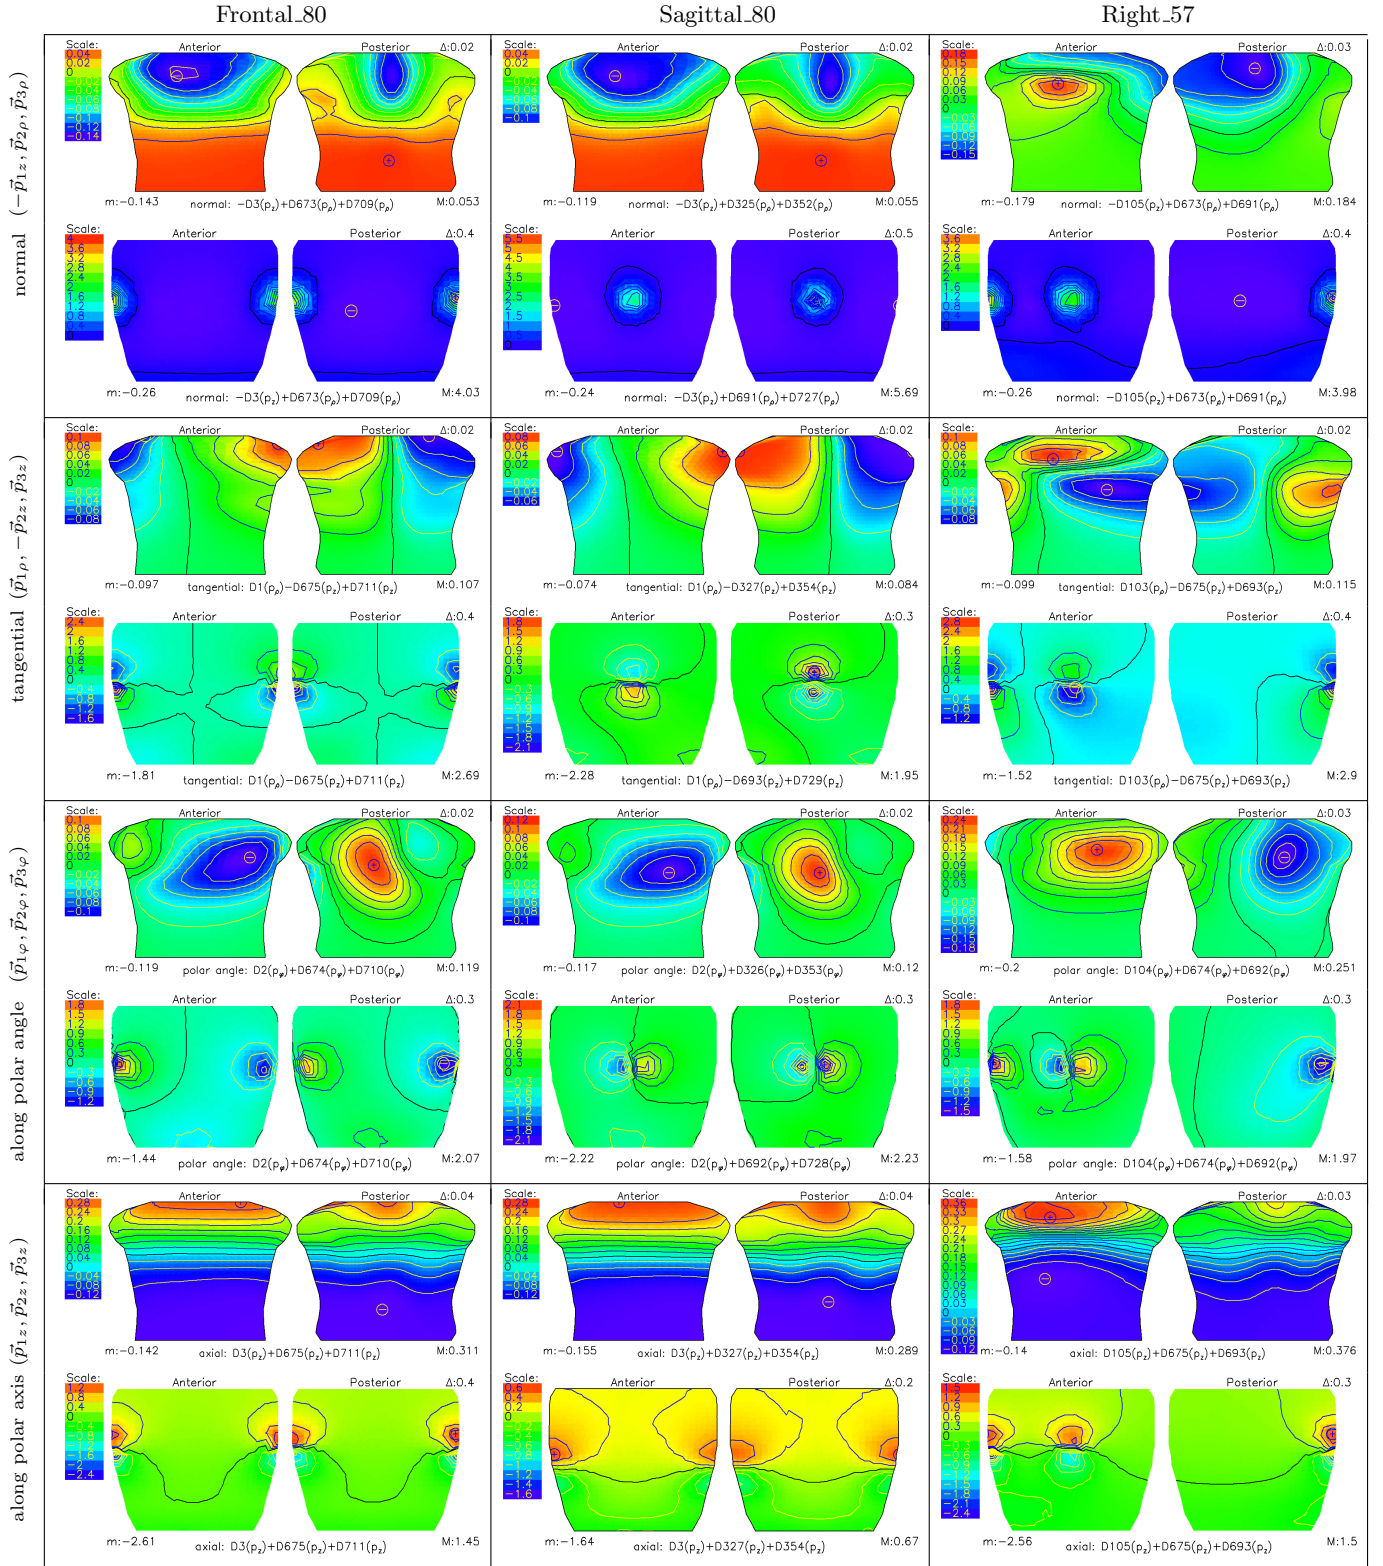

Fig. 1: Anterior and posterior views of tank and cage potential distributions for 3-dipole sources Frontal_80, Sagittal_80, and Right_57 (see, Table 4 and Fig. 5 in *ECGI_simulations.pdf*).

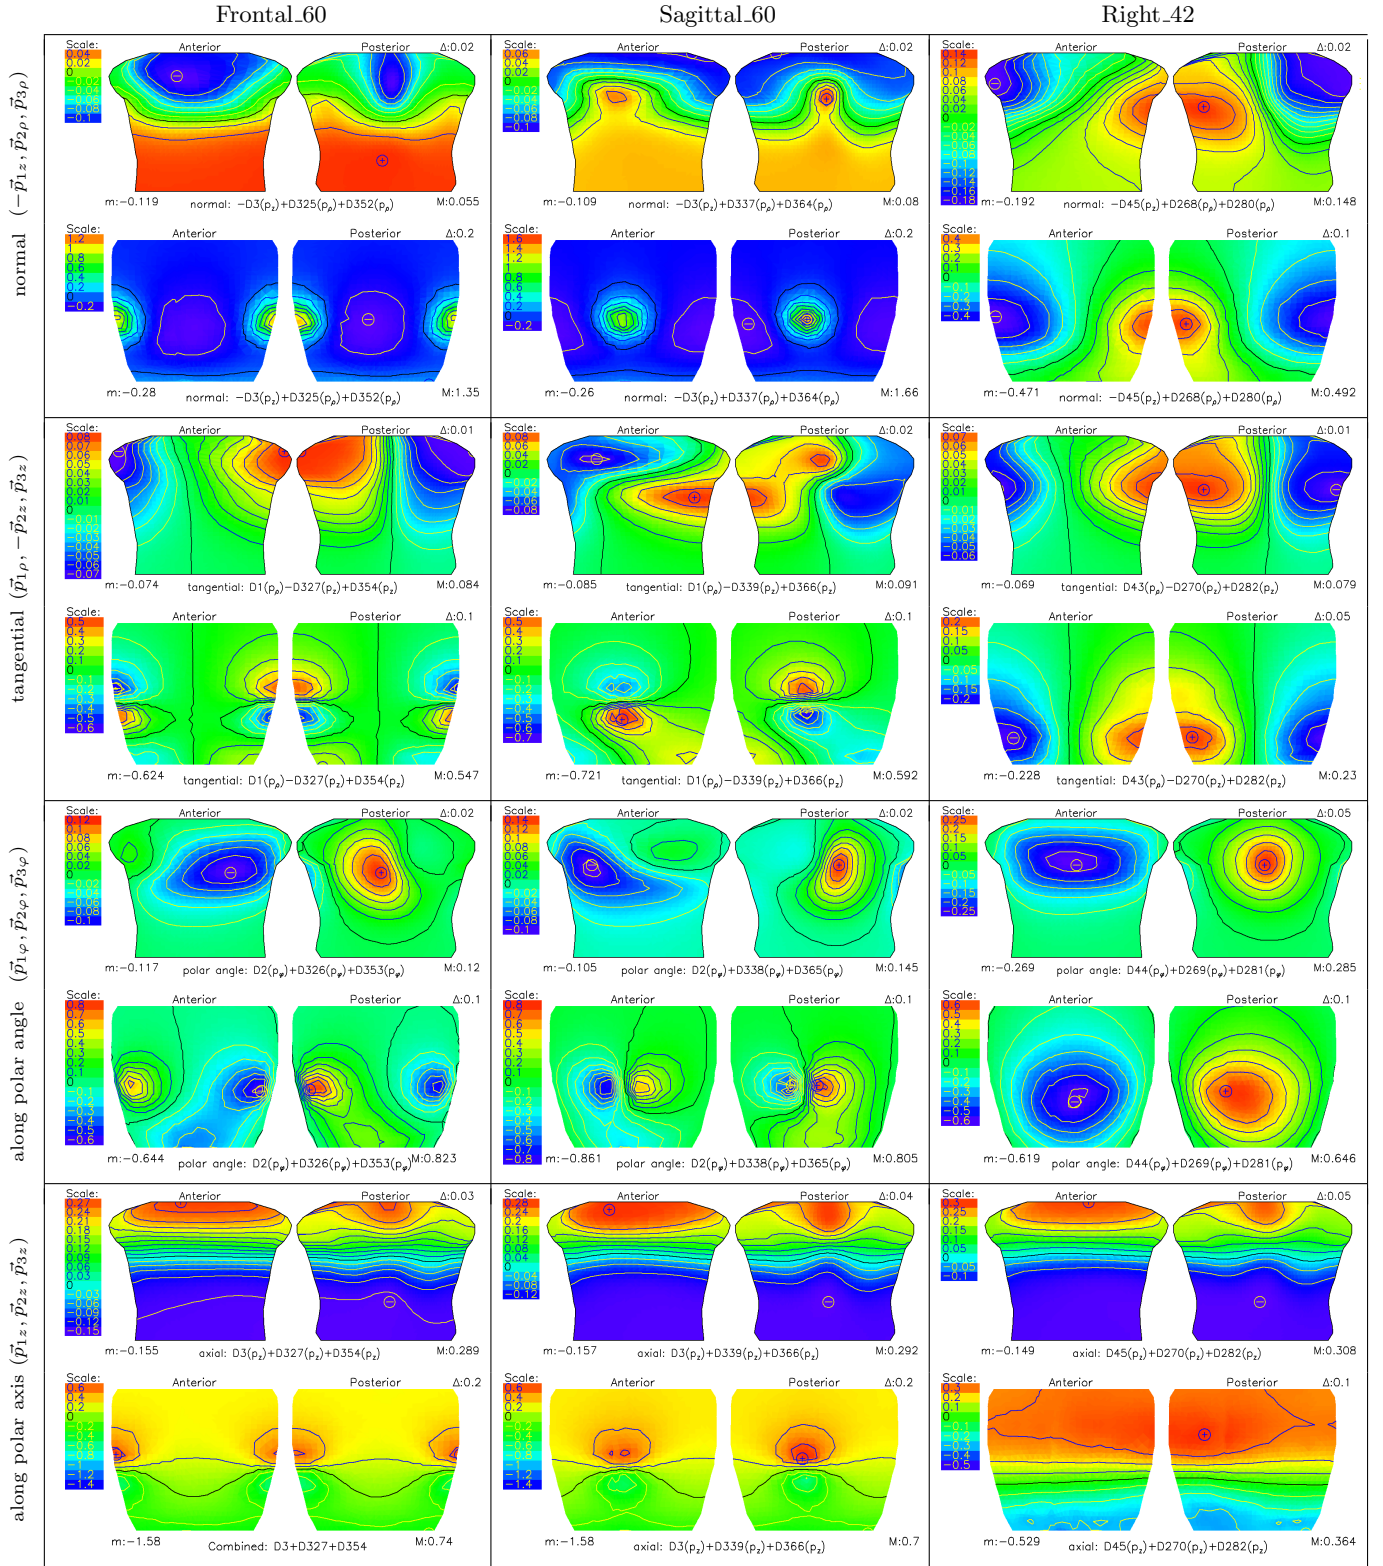

Fig. 2: Anterior and posterior views of tank and cage potential distributions for 3-dipole sources Frontal_60, Sagittal_60, and Right_42 (see, Table 4 and Fig. 5 in *ECGI_simulations.pdf*).
